In the Draft Decision, the Energy Division is expected to host a workshop within 15 days of the final release of the order. (See Section 3.2.1.)

The proposed decision asks the Energy Division to work with the California Independent System Operation (CAISO) and the California Energy Commission to: (1) adjust the local capacity requirements for the local areas for which deficiencies in qualified generation capacity have been identified by the CAISO; and (2) allocate local capacity requirements to individual, Commission-jurisdictional load-serving entities (LSEs), thereby establishing each LSE's local procurement obligation, using the allocation principles adopted in the decision.

The Commission's Energy Division will prepare and release a workshop agenda prior to the meeting. In addition to the items listed above, as well as any other items directed to the Energy Division in the final order, the Energy Division expects to use the meeting to discuss the 2007 Resource Adequacy Template and Guide (which will be released prior to the workshop).

**R04-04-003** - Order Instituting Rulemaking to promote policy and program coordination and integration in electric utility resource planning.

**R04-04-025** - Order Instituting Rulemaking to Promote Consistency in Methodology and Input Assumptions in Commission Applications of Short-run and Long-run Avoided Costs, including Pricing for Qualifying Facilities.

**Summary:** On June 29, 2006, Michael Alcantar, counsel to the Cogeneration Association of California and Energy Producers and Users Coalition (CAC/EPUC), met with Cmmr. Grueneich in San Francisco. Also present were Theresa Cho, advisor to Cmmr. Grueneich, and Rod Aoki, counsel to CAC/EPUC. Written material (attached to the notice) was used. Alcantar discussed the fact that yet to be issued proposed decision will be critical to the preservation of existing cogeneration projects and the encouragement of new projects in California. Alcantar explained the necessity for long term, standard offer contracts with reasonable terms and conditions. Alcantar also noted the deleterious impact the loss of existing cogeneration qualifying facilities (QFs) and the failure to encourage new cogeneration QFs would have on Governor Schwarzenegger's Climate Action Team goals for CO2 reductions.
